ASSIGNMENT DETAILS:

1. Project: Connect Your Care (CYC)

Description: Connect Your Care is one of the largest, and the most responsive, providers of uniquely featured Consumer-Directed Healthcare (CDH) solutions, including Health Savings Accounts (HSAs), Health Reimbursement Arrangements (HRAs), Flexible Spending Accounts (FSAs), retirement health benefit account administration, COBRA, and transit and commuter programs.

Roles and Responsibilities:

- In CYC my role as a software developer is to do enhancement based on the 28 days sprint.
- We are using Java, Node and React Js to the necessary enhancement request from the client.
- For request we are using Jira and for code check-in we are using bitbucket and source tree.
- We are working on both front-end and back-end side by side.
- Sometime beyond the enhancement we got some defect request in which we have take care of the defects that were arrived due to some enhancement part.

System: Amazon Web Service (AWS)

Software's and Tools: JIRA, Oracle SQL developer, Postman, Bitbucket, SVN, Source Tree, Eclipse, IntelliJ, Postman, Visual Studio Code, MongoDB

Domain: Healthcare & Banking

2. Project: Harvard Pilgrim Health Care (HPHC)

Description: Harvard Pilgrim and its family of companies provide health benefit plans, programs, and services to more than 3 million customers in New England and beyond. A leading not-for-profit health services company, we guide our members–and the communities we serve–to better health. Founded by doctors nearly 50 years ago, we're building on our legacy. In partnership with our expansive network of doctors and hospitals, we're improving health outcomes and lowering costs through clinical quality and innovative care management.

Roles and Responsibilities:

- Monthly enhancement request for file transfer script.
- Scripts are based on Java (File Transfer Modules).
- Code check-in we are using Nexus, SVN, and Spider.

System: Virtual Desktop Infrastructure (VDI)

Software's and Tools: Nexus, Spider, SVN, TIBCO, SOA, Eclipse (Java), SQL Developer, WinSCP.

Domain: Healthcare

Unique Qualities

- ❖ Self-starter and comfortable in high intensity and challenging work environment.
- ❖ Good interpersonal skills, commitment, result oriented, hard working with a quest and zeal to learn new technologies and undertake challenging tasks.
